## INTRODUCTION

All places are in Staffordshire unless otherwise identified

The five issues of Transactions that provide the basis of this index are unusual in that several papers contain a large number of personal names, particularly the Needwood Forest survey. Mostly, the names have been incorporated into the general run of the index but those of the forest commoners have been entered together under the heading of Needwood Forest. The original spellings have been adhered to but it is worth considering alternatives when searching for a particular family.

Once more I am indebted to our Hon. Editor, Dr Nigel Tringham, for his guidance, and to Mrs Diana Wilkes for help with proof-reading.
